

OTO STRIP

Electro Plating of **steel, copper, brass, aluminium strip and coils vertical and horizontal axis pass line**
Speed from 10 to 100 mt/min - looping accumulating devices - steering rolls compact design

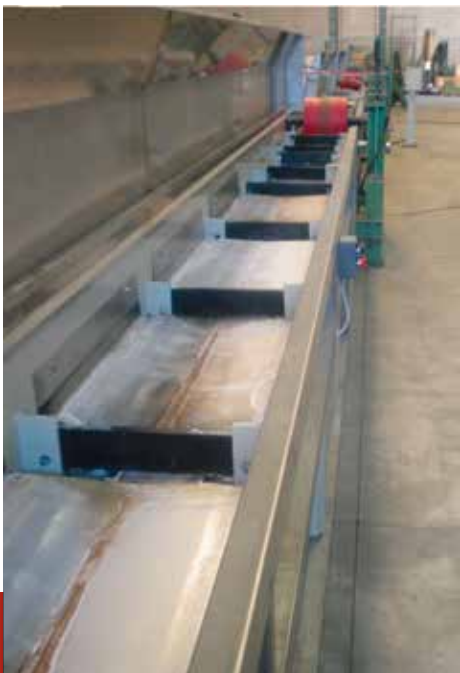

Vertical axis type

- » tin on copper and brass
- » zinc nickel or copper on steel
- » pickling of copper and brass
- » multi plating
- » coils sizes id 200-500
- » od 600-1200 width 40-400 mm
- » thickness 0,30-2,00 mm

Steering rolls electronic control

Cutting and welding device

Horizontal axis type

Looping accumulating

Vertical axis type plating cell
